EXPERIENCE

Research Assistant

ETH Zurich, Computer Vision and Geometry Group

📅 July 2020 – Ongoing 📍 Zurich, Switzerland

- Conducting research in 3D Computer Vision and Deep Learning.
- **Technologies:** Python, PyTorch

Software Engineer Intern

Swisscom

📅 Feb 2019 – Oct 2019 📍 Bern, Switzerland

- Developed an interactive visualization dashboard.
- Implemented API, UI, persistence and access control.
- The app is actively used by the operational and support teams.
- **Technologies:** Java, JavaScript, CI/CD, TDD, agile methodology

Software Engineer (working student)

Astrivis

📅 Oct 2018 – Feb 2019 📍 Zurich, Switzerland

- Implemented data fetching and synchronization logic.
- Designed a drag and drop feature for merging models.
- Adapted the architecture to Fragments.
- **Technologies:** Java, Android development, networking

Software Developer (working student)

Interdisciplinary Centre for Security, Reliability and Trust

📅 Nov 2016 – Apr 2017 📍 Luxembourg

- Developed an initial framework for RoboCup.
- **Technologies:** C++, Python, GNU/Linux

Software Developer Intern

Digital and Population Data Services Agency

📅 May 2016 – Jun 2016 📍 Helsinki, Finland

- Developed an iOS prototype app for creating digital signatures.
- **Technologies:** Swift, iOS development, PKI

PROJECTS

- 📅 2020 Self-Supervised Scene Flow Learning (Python, PyTorch)
- 📅 2018 Hand Pose Estimation with CNNs (Python, TensorFlow)
- 📅 2018 Semantic segmentation of satellite images (Python, Keras)
- 📅 2018 Analytics platform for Instagram (Java, Spring Boot)
- 📅 2017 Middleware for a cloud distributed system (Java, NoSQL)

EDUCATION

M.Sc. in Computer Science

ETH Zurich

📅 Sep 2017 – July 2020

GPA: 5.41/6.0

Specialization:

- Machine Learning
- Computer Vision

B.Sc. in Computer Engineering

National Technical University of Ukraine “Kyiv Polytechnic Institute”

📅 Sep 2013 – July 2017

GPA: 4.82/5.0

SKILLS

- Java Python C/C++ JavaScript
- GNU/Linux Git CI/CD
- Machine Learning Computer Vision

PUBLICATIONS

📄 Conference Proceedings

- Tishchenko, Ivan et al. (2020). “Self-Supervised Learning of Non-Rigid Residual Flow and Ego-Motion”. In: *2020 International Conference on 3D Vision (3DV)*. IEEE.

AWARDS

🎓 **Master Scholarship Programme**
ETH Zurich, Switzerland. Top 10% of Bachelor's degree programme.

🎓 **EUROEAST academic grant**
Two grantees out of all CS/CE/EE Bachelor's students at KPI.

🏆 **European Forum Alpbach Scholarship**
Interdisciplinary conference. Austria
